

Mepilex® Lite en la prevención de las UPP

Evidencia clínica

Mepilex® Lite SafetaC TECHNOLOGY
ESPUMA DE POLIURETANO
EXTRAFINA

A continuación puede encontrar toda la evidencia clínica y científica que a lo largo de los años se ha generado en relación a **Mepilex Lite** para la prevención de úlceras por presión desarrolladas por dispositivos médicos:

1. Miner KJ, Vassar C, Bechert K, McNeil M.; Teacher's PPET: developing a Pediatric Pictorial Education Tool to reduce medical device related pressure ulcers. Poster presentation at the Joint Conference of the Wound Ostomy and Continence Nurses Society and the World Council of Enterostomal Therapists, New Orleans, Louisiana, United States of America, 2011.
