Letter of commitment to support the UN Global Compact

31st May 2017

Dear Mr. Secretary General,

Mölnlycke Health Care is pleased to confirm its support of the ten principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express the company's intent to comply with the principles. Mölnlycke Health Care is committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of the company, and to engage in projects which advance the goals of the United Nations, particularly the Sustainable Development Goals. Mölnlycke Health Care will make a clear statement of this commitment to the company's stakeholders and the general public.

We recognise that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Richard Twomey
CEO
